Poverty is simply having more problems than solutions. It is caused by a person who is overwhelmed by problems which he/she can't solve. If you do not solve money problems, you become poor. We all know people who go to work

everyday, working for money, making more money, but fail to become richer.

whatever may be said in praise of poverty, the fact remains that poverty sucks. You can't enjoy being poor. Being poor makes a person feel less power in life. Getting rich is not the matter of environment but the matter of our mindset. Our minds is what makes a person rich or poor. Our mind is a stuff from which all things are made. A human life is based on mindset. Our mind is what shows who we are.

There are two types of incomes which makes a person poor

2.SELF-EMPLOYED

Being self-employed is who you are.You are the business and the business depends on you.when you get sick,the business gets sick too and the money stops.In order for you to make more money,you have to work more.Imagine you getting sick for a month, how would you survive.

TOPIC 1

WHAT MAKES A PERSON POOR

FEAR

Fear is the product of imagination, causing us to fear things that do not at present and may not exist. Fear is the greatest enemy a person can have. There is no greater enemy than fear in a human life. Fear is something that stops most people from being greater. It stops you from doing something

you know within yourself that you can do but it stops you from doing it. It is a condom of life. It ties you up to be in poverty. It kills dreams. Fear is the devil in you to defeat because it kills dreams.

Some people have great ideas about what they want to do in their life but once fear comes in, it weakens them completely. A lot of people allow fear to control them.

A lot of people are afraid of taking risks. Taking risks is

good thing even though it pains sometimes. Risks are what builds us. It shows us the right way to go. It teaches us and give us great ideas. Being afraid of taking risks is like being afraid of learning.

Never let fear control you. You are the one to control your fears. Never let fear stop you from doing things you believe in and never be afraid of failing. The people who fails are those who fear failure. Always remember that every mistake is a lesson.

TOPIC 2

Our brain is something which controls all parts of the body. It works as an engine to a human body. When you put something bad in your mind, that bad start controlling you.

WHAT MAKES A PERSON POOR

A human life is beside on you mindset. Once you have spoiled your brain, you become a nobody in life.

Being born poor or from a poor family is not a mistake but a blessing. Being born poor pays much than being born from a rich or middle class family. Its great starting life from the bottom. Being born poor will tell you what you don't have and what you have. It gives a mission to get what you don't have.

Having nothing strengthens you,
gives you a mission and teaches you much
about life.

A lot of us learn to be poor from our
parents. They tell us "go to school and
get high grades so you may find a high
paying job". That's a job not wealth. You
can get fired. School

ways are always preparing us to be good
employees. An employee

will never be rich because he works for
money.

A poor minded person is a type who lives from paycheck to paycheck. They never invest their money. All they know is to save and spend their money. The biggest problem is on spending pattern. Spending pattern is that when you get your income, it goes into spending. That's why you work so much and never change. Spending money on liabilities will never make you rich.

WHAT MAKES A PERSON POOR

A poor minded person never adds value. When he/she starts working and getting a paycheck, it will seem to be a lot of money because he is single. Once a person marries, the value of his paycheck goes down because they are now two. The more the family grows, the poorer he becomes. The older he grows, the more poorer he becomes.

One of the worst mindset that that develop a poor mindset is your background, where you came from. The mindset of people you know and your experiences can cause a person to believe that you are born to be poor

A poor minded person always have a small dream.They dream of building a 1 or 2 roomed house,eating three times a day.When you dream small,you won't win big.You have to make a big breasm.We don't work for food only but to build a great life.

Envy is having a heart of hating good. Being the enemy of progress. Is a heart of not wanting someone do better than you. It can make you become very poor. Envy is something which makes a person never find peace and happiness in life. It's

perhaps the most sour crushing and so debilitating thing. It

can take over your every thoughts and turn

a once good person into someone obsessed with another person's possessions, qualities, or day-to-day life. It's a greatest weakness. This is what envy can do to you

you from someone who was good into someone who constantly complaining and looking downside. You will start comparing your life with others and asking yourself questions like "why can't i have that, i deserve it, it's not fair!" which can't change anything.

2. IT PUSHES YOU TO BE WATCHING OVER SOME EVERYDAY.

You will start trying to know what's happening to that

person. You will be trying to know everything like "what have they bought". You will be trying to know what's happening in another person's house.

3. ENVY CAN DESTROY YOUR CAREER

Envy can grip you, and prevent you from being a good and happy person. Your focus will be on what other people have and what they are doing. You will lose your focus on your career and let envy take over you.

4. ENVY MAKES YOU DOUBT YOURSELF

When you find yourself living with envy on a daily basis, it begins to finish you and make you doubt everything you're doing. You will stop making great plans and decisions for your life.
